TOWN WARRANT

To the Inhabitants of the Town of Newmarket in the (L. S.) County of Rockingham in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the ninth day of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To raise such sums of money as may be necessary to defray town charges for the ensuing year, that is to say: to raise such sums of money as may be necessary for General Government, including town officers' salaries, town officer's expenses, election and registration and town hall; for the protection of persons and property, including the police department. For health and Sanitation, including the health department, vital statistics, and sewer maintenance; for Highways and Bridges, including state aid maintenance, sidewalks, street lighting and general expenses of the department; for Education, including the public library; for Charities, including the decoration of soldiers' graves, for Recreation including band concerts; for Cemeteries; for Interest; for New Construction

and Improvements, including state aid and town construction; for Indebtedness Payments to other Governmental Divisions, including county tax, and pay all other necessary charges arising within said town.

4. To see if the town will vote to authorize and empower the Selectmen to borrow money for necessary expenditures in anticipation of the collection of taxes.

5. To se if the town will vote to allow a discount of 1 per cent on all taxes, except poll taxes, paid on or before August 15th, 1948.

6. To see if the town will vote to change its method of repairs of streets and highways. To elect one road agent to have charge of construction, maintenance, and repair of all town highways.

7. To see if the town will vote to pay members of the fire department $47.00 in addition to that required by law.

8. To raise and appropriate for the issuance and distribution of printed matter and otherwise publicizing the resources and natural advantages of the town in cooperation with other towns coordinated in the Seacoast Regional Development Association, the sum of $130.00.

9. Deficiency appropriation. To appropriate the sum of $2,500.00 to cover the expenses of repairing the baseball athletic field.

10. To raise the sum of $600.00 for the payment of the new snowplow.

11. To raise the sum of $3,700.00 for the purpose of purchasing two pieces of equipment for snow re-

moval. One a tractor to be equipped with a snow loading bucket, the other to be a small caterpillar sidewalk plow. This equipment, if possible, to be purchased from the War Assets Administration.

12. To see if the town will vote to authorize the selectmen to make contracts for the installation of parking meters, the revenue to be used to finance the purchase, the maintenance and policing of such meters

13. To see if the town will authorize the selectmen to effect the purchase of the vacant lot of land next to the town hall, and to empower the selectmen to make necessary plans for a combination municipal building to be constructed when Federal Funds will be available for projects of this kind.

14. To raise the sum of $350.00 to install a new motor in the town's truck.

15. To see if the town will raise and appropriate a sum of money necessary to tar the section of road from the end of the State Road near the George C. Sewall Estate to the Four Corners.

16. To see if the town will vote to raise and appropriate the sum of $24,000.00 for the purpose of repairing and equipping the fire damaged Primary School for the use of the Fire Department. $2,000.00 to be raised this year and the balance of amount to be on a long term note payable at $2,000.00 a year until paid, and authorize the selectmen to borrow said amount.

17. To see if the town will vote to authorize the board of selectmen to draw up a town ordinance per-

taining to buildings, restricted to the Main St. That is to say, said ordinance law to cover the tearing down of buildings and of New Construction.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Newmarket:

It is with pleasure that I submit my first report relative to your schools. As I was elected to this position only four months ago, most of the statistics will cover Mr. Osgood's last year as Superintendent.

Newmarket was fortunate in retaining all but one of its elementary teachers from last year. Mrs. Matile Pound of Durham, replaces Miss Beatrice Brown.

Grades 1-4 are housed at present in the old high school. Efforts are being made to put this building in first class condition as soon as possible. The large classrooms are an asset to the children and when repairs are complete the Central School will make a fine elementary set up.

The lighting, paint and plumbing at the Stone School are all in need of much attention. Upkeep of old buildings is a costly matter and a serious handicap to any town.

Newmarket would greatly benefit from any proposal that would centralize the educational opportunities of its children. We have all been guilty of putting issues aside and not facing facts and looking into improvements that would aid us in the future. Our children are our greatest asset and should be given first consideration. There is a definite need for vocational and physical education in the High School plus a good hot lunch program that would serve meals daily to boys and girls. An addition to the High School would enable

these programs to be carried out and also take care of grades 5 and 6 in the present High School building. It is hoped that the citizens of Newmarket will consider their children and enable them to have even better educational opportunities.

I wish at this time to thank the School Board, teachers, pupils and citizens of Newmarket for their fine support during my first four months in this Supervisory Union and I hope Newmarket can continue its fine spirit in years to come.

Respectfully submitted,

ARTHUR W. DANIELSON
Superintendent

REPORT OF HEADMASTER

To the School Board and Citizens of Newmarket:

It is a pleasure to be able once again to submit this annual report to you. The record shows we have completed another successful year in our efforts "to shape the future of America". Those of us who spend our entire time working with the youth of Newmarket appreciate your friendliness and cooperation throughout the year.

TEACHERS

The High School did not feel the effects of the teacher shortage in that only three of our staff resigned in June. John Stowe, Chemistry and Mathematics, entered Boston University to do graduate work in Chemistry. Miss Marion Burnett, Springfield, Massachusetts, was elected to this position. She also acts as girls' athletic coach. Miss Katherine Stulb transferred to neighboring Traip Academy. Mr. Alson Clark, Jr. was engaged to teach Social Studies. Mrs. Barbara McKnight resigned as Music Supervisor because of ill health. Miss Dorothy Freese, Pittsfield, New Hampshire, became the new Music Supervisor.

At mid-years Mr. Alson Clark, Jr. resigned to enter business, and Mr. Gardner Holmes, Jr. was engaged as the new Social Studies Teacher. Mrs. Fay Phair also resigned at this time and Mr. Charles Clark was selected to succeed her as Geography and Science teacher.

Late in the summer Mr. J. A. Osgood, Superintendent of Schools, resigned to take a similar position in Somersworth. Supervisory Union No. 14 elected Mr.

Arthur W. Danielson to be our new Superintendent. In the short time Mr. Danielson has been with us he has become a true professional leader and real friend to all.

I feel proud of the faculty of N. H. S. for each member gives much over and above the call of duty to make better the educational opportunities of your children. The group is alert at all times to current trends in education, and utilize those new methods which measure to good educational standards.

NEW MATERIALS

This year we replaced the science book in Grade VII with the first of a new series which in time, I hope, will extend from Grades VII to IX. We continued our present Mathematics series in replacing Grade VIII Arithmetic texts. This "Living Mathematics" Series extends from Grade III through Grade VIII giving the youngsters a sound and consistent foundation in Arithmetic.

Our Chemistry books were brought up to date with the purchase of "New World of Chemistry" by Jaffe. This provides opportunity for those who want a college preparation or general training to secure it without difficulty. Through the assistance of the Federal Noon Lunch Program, we were able to get our refrigerator. We now wonder how we were able to get along without it so long. We have a used opaque projector from War Assets Administration which enables us to project pictures from texts to assist in class work. A new bicycle rack at the rear of the school enables us to keep our bikes together in an orderly fashion.

An electric adding machine was ordered last summer and delivery is expected at any time. This machine is

to be financed mostly by the Alumni Fund and will carry a plate stating that the classes of '45, '46, '47 contributed largely toward its purchase. The adding machine will increase the efficiency of our Commercial Department.

EXTRA CURRICULAR

All our regular clubs have been active throughout the year. The School Service Club deserves special commendation for its fine work. Of particular note is the first Sophomore Hop, which was held at the Town Hall. The hall was well decorated and an imported orchestra kept the evening a lively one.

The "Lamprey" went on under the direction of Mrs. Jean Hibbard to place in the first division in the Columbia Contest this year. The Class of 1947 won third place in arithmetic on Scholarship Day in Keene. The Glee Club again presented a fine public performance in "The Musical Clock" under the direction of Mrs. Barbara McKnight.

A nod goes to Mr. John Hibbard who filled in as baseball coach when Mr. Foster broke his leg during a practice session.

This is the second year we have had our athletes insured against injury whether in practice or regularly scheduled games. The full cost of this insurance has been assumed by the School Board. Although we have had no serious injuries since the insurance was put in force, improved benefits this year would help considerably in case of injury.

CERTIFICATION

All six grades at Newmarket High School are certified by the New Hampshire State Department of

Education and we are an A-6 school. A certificate from Commissioner Fuller is posted on the main bulletin board attesting this fact. The high school continues its membership in the New England Association of Colleges and Secondary Schools by meeting the Association's standards.

ALUMNI

A survey of the class of 1947 shows that four of the number have entered Academic Colleges. Five of them have entered training schools for nurses, beauty academies or preparatory schools. The remaining nineteen members of the class are employed in positions locally and in surrounding towns. One has traveled as far as California.

ATTENDANCE

I always mention the fine attendance record maintained by most members of the high school. Regular and punctual attendance at school is necessary for the pupil to make the most of his opportunities.

The big problem of all schools is how to better meet the needs of that great group of pupils who end their education at Grade XII. On an average, only two out of every ten go to college, yet today, as for so many years in the past, the curriculum of the schools are still organized too much for their benefit.

Every youngster who really wants an education should get it. He should get that type of education which will best fit him into his position in society. He has the right to feel the sense of security that success in a job gives.

Newmarket can do much toward meeting this problem by making possible the new Memorial Auditorium-Gymnasium at the high school. This building would provide the means for a shop which can give the boys fundamentals in auto mechanics, electricity, drafting, sheet metal work and wood working. The boys would then have a vocational opportunity which could compare with the Home Economics and Commercial work now enjoyed by the girls. It is felt that many boys who now leave school would be held by an adequate shop program.

In addition the gymnasium and stage facilities make possible the development of programs in physical education and dramatics. These same resources can also be of untold value to the business and social life of the town itself.

We owe the youth of Newmarket every educational opportunity we can possibly arrange for them for the future of our town and nation is held in the hands of our youth. An educated, trained and stable youth can become an excellent citizen.

We again extend our invitation to the parents to visit school and see their youngsters at work in classes. Open House at Newmarket High extends from September to June.

ANDREW CROOKER, Jr.

COMMERCE

The Commercial Department was fortunate in obtaining three new Royal typewriters this past year which were promptly put into use.

The Mimeograph has been overhauled and, together with the Standard Duplicating Machine, enables the Office Practice class to turn out a great deal of duplicated material in the form of play programs, units, special bulletins, and office forms.

A Burroughs Electric Calculator is on order and we should have it in the near future. This new machine will certainly be of great service to the Bookkeeping class, as well as the Office Practice class.

The Bookkeeping classes have excellent opportunities for actual work experience through handling the finances of the noon lunch, yearbook, and clubs, and classes.

During the year, the students in bookkeeping, shorthand, and typing participated in National and International Contests. The girls really made a very good showing and did the high school proud.

As in the past, the members of the Office Practice class are planning to visit the John Hancock Life Insurance Company in Boston, which will provide an excellent opportunity to see a large, modern office in operation.

The Commercial Department is still endeavoring to offer opportunities for the members of the Office Practice class to get actual work experience in various types of offices in town. When they reach the final year of school, we feel that this practical experience is of a great deal of value to them and helps them when they get their first position.

Continuing this trend, the high school offers a

placement service to these girls. We should be especially concerned if employers hiring these girls would contact us before doing so and perhaps we could help them through our recommendations.

We have made use of opportunities to extend business training to adults who wish to secure positions in the business world.

Thus, the Commercial Department continues its never ending endeavor to provide the girls with a practical background upon which to build their future lives.

JEAN D. HIBBARD

HOME ECONOMICS

This year through rotation of courses we are teaching Clothing and Textiles and The Home. The clothing class presented a problem at first because of inadequate space. However, by rearrangement of the cutting tables we managed to accommodate the large group of girls taking sewing. We have only five sewing machines for a class of eighteen girls which is likewise a handicap. We could certainly use more sewing machines to good advantage.

The girls have made a great variety of useful articles for the home and also garments for themselves. These projects are carried out both in class and at home for home projects. Practical application of sewing principles learned better enables these girls to apply the knowledge later.

In the fall these classes set up a display of the articles in the Gas and Electric Co. window. They also had a fine display for open house during National Education Week.

At Christmas time the girls did special gift projects. There was a great deal of interest shown and the final results were very satisfactory.

The eighth grade did quite an extensive study of candy making for their Christmas projects. After making several kinds of candies they packed boxes for the superintendent and members of the faculty.

However, the cooking laboratory is in great demand. With the preparation of noon lunch and regular junior high cooking classes at the same time, it is a problem to do justice to both activities because of lack of stove space.

Tentative plans have been drawn up for the rearrangement of the foods laboratory. The plans provide for four individual unit kitchens. A minimum of new equipment would call for new sinks of adequate and practical size for each unit and at least one new stove which we would prefer to be gas. This together with the electric and oil stoves we now have would enable the girls to get the experience in using different types of fuel rather than limiting to one or two. In addition to these features, more storage space would be added which is desperately needed.

One of our greatest desires was realized last fall when we received our long-awaited refrigerator. It certainly is an asset to the laboratory.

The girls from the four high school grades have a Home Ec Club which has been very active this year. Their most important achievement was becoming affiliated with the state and national home economics organization which makes the club a member of the Future Homemakers of America. Through this association the girls have an opportunity to meet other group members and thus broaden their views.

By continuing to carry outb oth class and outside activities along these lines, we hope to achieve the purpose for which we are striving—that of making better homemakers.

LUWILDA RAYMOND

MUSIC

Formal music education begins with the first grade. Upon entering the first grade, some pupils have already gained a knowledge of rote singing at home; others less fortunate, have not been given that opportunity. Some have difficulty in telling whether a note goes up or down; others can not control their voices enough to place them correctly.

Monotones and children unable to carry a tune must be given special drills each day. If these children are allowed to slip by without this special help, they will find it more difficult each year to learn to sing. We must try in every way possible to make monotones and semi-monotones into rote singers by the end of the first year. In many instances, the child needs only a proper model for imitation.

In the first grade we give the child an opportunity to become aware of the rhythmic pulses of music. We help him gain this by dramatization of songs and recordings and, of course, the Rhythm Band.

At this age a child would rather be active than passive, so that little emphasis is put on Music Appreciation and Theory. They are given only a few recordings that can be easily auditioned and analyzed. In Theory they learn to draw and number the lines and spaces of the staff; they can recognize the G clef, time signature, and note values.

Since our main interest is to develop the ability to sing rote songs, we do not put books into the hands of a child in the first grade.

The second grade spends the first few weeks in a review of the first grade material. If the aims of the first grade have been realized, they are then ready to begin with the Observation Lessons on the blackboard until they can read fluently, the syllables of several songs. They are then given books and are helped to transfer their ability to read syllables from the board to their books.

Occasionally they revert back to an Observation Lesson on the board so that the teacher will know how fast they are progressing. Observation Lessons continue throughout the year.

Rhythmic imitations, tone drills, theory, and appreciation is continued. Music writing is begun.

In the third grade emphasis is placed on Observation Lessons with longer songs. Towards the end of the

year, a child should be able to read a song by sight using syllables and then applying the words. Rhythmic activity and Theory is continued.

Rhythm, theory, music writing, and appreciation is again continued in the fourth grade. It is in the fourth grade that the transition from rote to note is completed. True music reading should be begun and songs should be easily learned at sight.

This year it will be difficult to accomplish the third and fourth grade standards. It has been necessary to work with the pupils on the first stages of music reading and it is a very gradual process.

Pupils of the fifth and sixth grade level should be able to read music easily at sight. They should be given two and three part songs. But as with the third and fourth grades the rote to note cycle has not been completed and it is necessary to teach nearly all of the songs by rote.

We go into more theory and appreciation in these higher grades. We study the four families of instruments and of what each is composed. Instruments are brought in whenever possible for demonstration and passages are selected from recordings which represent each instrument. We now have a few of the pupils interested enough to study an instrument under private instruction.

In the High School we have seventh and eighth grade Girls' and Boys' Chorus, High School Girls' Glee Club, a Boys' Glee Club, a Mixed Chorus and a High

School Orchestra. The seventh and eighth grade chorus meets once each week separately. The Girls' Glee Club met twice a week until the Boys' Glee Club was formed and now each meets once. The Mixed Chorus combines the two Glee Clubs and uses one of the regular Glee Club periods. The orchestra meets once each week.

The Girls' Glee Club appeared this year on the National Education Week Program, sponsored the Christmas Assembly, and sang at a Women's Club meeting. Our plans for the remainder of the year include sending three representatives to the New Hampshire Concert Festival at Berlin, a Minstrel Show and Graduation Week exercises.

Glee Club regulations have been set up this year whereby a member complying with the regulations may be eligible for an emblem.

It is our goal to utilize the profits from our Minstrel Show to purchase choir robes.

The Boys' Glee Club has not been organized long enough for them to have made any public appearances. However, they plan to join the girls in sponsoring the Minstrel Show and possibly take part in the Graduation Week Program.

There are five members in our Orchestra. We are working on music for the Graduation Week Exercises also. It may be possible for us to add the fifth and sixth grade instrumentalists to our Orchestra this year.

CORRECTIONS MADE THROUGH THE NURSE
1947

17 Children taken to doctor for eyes. All 17 children were taken twice and in most cases had to go the third time to get their glasses.
3 Children taken to doctor.
4 Children to dentist.
4 Children to Dover, Dr. Reid for examinations and arrangements for operation.
12 Children had glasses paid for by the local Red Cross.
5 Children had glasses through the Sight Conservation Service.
1 Child had operation for cross eye through the Sight Conservation Service.
4 Children had tonsil and adenoids taken care of. Paid for by the N. H. Crippled Children Society.

Our local Red Cross has furnished milk on the average of 35 children each week. All these children were under weight or had been ill. Milk has made a big improvement in most of the children who had it.

Our greatest need in Newmarket is still lack of dental care for the school child. A dental clinic especially in the elementary grades. Feel every child in school, not only in Newmarket, but everywhere through the sixth grade should have complete dental care every year.

One hundred forty-five pupils had the Fluorine Test given under the State Department of Health and Education. Treatments were given and all 145 pupils had first good oral hygiene. Done by our local dentist Dr. Charles Manning. We expected these children to have

two more treatments but our funds were lacking. We have the promise of help for two more treatments.

State Department of Health and Education now owns a new "Mobile Dental Unit". As yet there is no full time dentist. Newmarket has made application for its use, but no news as when at present date.

Plans are to have a big Anti Toxoid Clinic in the spring. We already have nearly 200 children signed up for it. Anti Toxin serum will be given for prevention of Diphtheria, Whooping Cough and Tetanus.

The health conditions in the Newmarket Schools has been excellent for the past year. We have very little contagious disease which helps so much. I want to thank the Local Red Cross for their great help. They have been most generous. Again thank the teachers, Sisters of St. Mary's School and the parents for their fine cooperation past year.

MYRTLE V. FLETCHER

School Nurse

Births Registered in the Town of Newmarket, N. H. for the Year Ending December 31, 1947 — Born Elsewhere

Date of Birth	Name of the Child	Place of Birth	Name of Father	Maiden Name of Mother	Birthplace of Father	Birthplace of Mother
